

# ACCESS TO INSIGHT

Supporting global haemostasis research

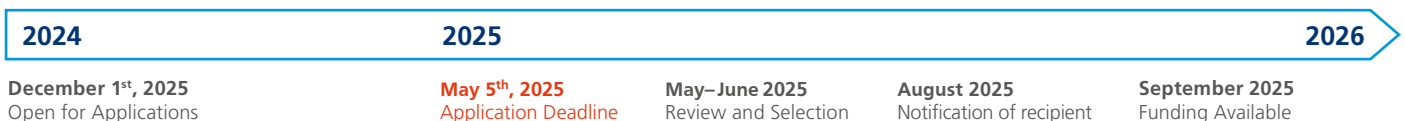

## Your way to funding opportunities

### Grants

Basic Research Grant & Clinical Research Grant

- 1 Please obtain approval from your institution/organisation (and co-investigators, if applicable) to apply for funding.
- 2 Download the application form from: [www.access-to-insight.com](http://www.access-to-insight.com)
- 3 Prepare the application documents:  
Complete the application form electronically, write a cover letter, provide a curriculum vitae
- 4 Send the completed application documents as email attachments to [application@access-to-insight.com](mailto:application@access-to-insight.com) prior to the submission deadline (**May 5<sup>th</sup>, 2025**).
- 5 You will receive an email within 5 working days confirming the receipt of your application.
- 6 All applications will undergo independent scientific review by the *Access to Insight* Grants Core Faculty and Review Board.
- 7 You will be notified about the decision 3 – 4 months after the application deadline.  
If successful, a contractual agreement will be prepared in collaboration with your institute.
- 8 Approximately 6–8 weeks after the notification, the funding will become available.
- 9 The recipients of funding will be requested to provide a summary of their projects for the *Access to Insight* website and regular status reports to the *Access to Insight* Grants Office.

# ACCESS TO INSIGHT

Supporting global haemostasis research

The *Access to Insight* Novo Nordisk Haemostasis Grants Initiative offers exciting funding opportunities specially tailored to the needs of talented haemostasis physicians and researchers.

**Novo Nordisk**, a healthcare company with a leading position in haemostasis management, is strongly committed to supporting haemostasis research and education.

The initiative is steered by the *Access to Insight* Grants Core Faculty, a group of distinguished haemostasis experts chaired by Nigel Key, MB ChB, FRCP, from the University of North Carolina School of Medicine and the Harold R. Roberts Comprehensive Hemophilia Diagnostic and Treatment Center in Chapel Hill, NC, USA.
